Full Stack Web Developer

EXPERIENCE

General Assembly, Boston — *Web Development Immersive*

August 2017 - PRESENT

A twelve week, 40 hours per week, intensive course in full stack web development.

Completed projects include:

Tic Tac Toe:

A single page web application for playing tic tac toe. Tech stack included Javascript with Jquery library, html, css and sass.

Records:

A simple web app designed for users to record and keep track of their respective music collections. Designed back end API using Ruby on Rails to handle CRUD requests.

FileDumpling:

A Dropbox-like file management application . Built in a team using SCRUM workflow. Uses MongoDB and Express for backend.

EDUCATION

University of Massachusetts, Boston — *B.A Philosophy summa cum laude*

2016
